Reference Collections of U.S. Patents and Trademarks Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information in various formats from the U.S. Patent and Trademark Office. Many PTDLs have on file all full-text patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PDTLs have both the patent and trademark sections of the *Official Gazette of the U. S. Patent and Trademark Office*. The full-text utility and design patents are distributed numerically on 16 mm microfilm, and plant patents on color microfiche. Patent and trademark search systems on CD-ROM (Compact Disc-Read Only) format are available at all PTDLs to increase utilization of and enhance access to the information found in patents and trademarks. It is through the CD-ROM systems that prelminary patent and trademark searches can be conducted through the numerically arranged collections.

All information is available for use by the public free of charge.

In addition, each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials. Facilities for making paper copies of patent and trademark information are generally provided for a fee.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particular library is urged to contact that library in advance about its collections, services, and hours in order to avert possible inconvenience.

The following marks are published in compliance with section 12(a) of the Trademark Act of 1946. Applications for the registration of marks in more than one class have been filed as provided in section 30 of said act as amended by Public Law 772, 87th Congress, approved Oct. 9, 1962, 76 Stat. 769. Opposition under section 13 may be filed within thirty days of the date of this publication. See rules 2.101 to 2.105.

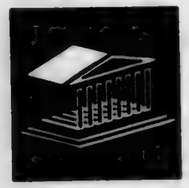
SECTION 1.—INTERNATIONAL CLASSIFICATION



The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

Reference Collections of U.S. Patents and Trademarks Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information in various formats from the U.S. Patent and Trademark Office. Many PTDLs have on file all full-text patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PDTLs have both the patent and trademark sections of the *Official Gazette of the U. S. Patent and Trademark Office*. The full-text utility and design patents are distributed numerically on 16 mm microfilm, and plant patents on color microfiche. Patent and trademark search systems on CD-ROM (Compact Disc-Read Only) format are available at all PTDLs to increase utilization of and enhance access to the information found in patents and trademarks. It is through the CD-ROM systems that prelminary patent and trademark searches can be conducted through the numerically arranged collections.

All information is available for use by the public free of charge.

In addition, each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials. Facilities for making paper copies of patent and trademark information are generally provided for a fee.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particular library is urged to contact that library in advance about its collections, services, and hours in order to avert possible inconvenience.

Patent and Trademark Office

37 CFR Part 2

[Docket No. 930508-3108]

RIN 0651-AA61

Revision of Trademark Fees

AGENCY: Patent and Trademark Office, Commerce

ACTION: Notice of Proposed Rulemaking.

SUMMARY: The Patent and Trademark Office (PTO) proposes to amend the rules of practice in patent and trademark cases, Part 2 of title 37, Code of Federal Regulations. The PTO proposes that the fee amount for filing a trademark application be set at $245, in accordance with the applicable provisions of H.R. 2632. No other fees will be affected by this rulemaking.

DATES: Written comments must be submitted on or before August 20,1993. A public hearing will not be held.

ADDRESSES: Address written comments to the Commissioner of Patents and Trademarks, Washington, D.C. 20231, Attention: Robert Kopson, Suite 507, Crystal Park 1, or by FAX to (703) 305-8525. Written comments will be available for public inspection in suite 507 of Crystal Park 1, at 2011 Crystal Drive, Arlington, Virginia.

FOR FURTHER INFORMATION CONTACT: Robert Kopson by telephone at (703) 305-8510 or by mail marked to his attention and addressed to the Commissioner of Patents and Trademarks, Washington, D.C. 20231.

SUPPLEMENTARY INFORMATION: This proposed rule change would adjust the fee for filing a trademark application in accordance with the provisions of H.R. 2632. The proposed trademark fee increase is due to an expected funding shortfall for the trademark operation in fiscal year 1994. In order to collect the needed funds, and to keep the fee adjustment as limited as possible, only the trademark application fee is proposed to be increased.

The PTO will not adjust any other fees. The PTO's fiscal year 1994 operating expenses are approximately $21 million less than planned. This reduction is attributable to: (1) the policies of the Administration to effect administrative reductions throughout the Federal Government and to constrain growth in Federal employment levels; and (2) the actions of the General Services Administration in reappraising the agency's space rental costs which have resulted in a reduction in rental payments. These cost reductions preclude the need for a fee increase.

Statutory Provisions: Section 31 of the Trademark (Lanham) Act of 1946, as amended (15 U.S.C. 1113), authorizes the Commissioner to establish fees for the filing and processing of an application for the registration of a trademark or other mark, and for all other services and materials furnished by the PTO relating to trademarks and other marks.

Section 31(a) of the Trademark (Lanham) Act of 1946 (15 U.S.C. 1113(a)), as amended by Pub. L. 102-204, allows trademark fees to be adjusted once each year to reflect, in the aggregate, any fluctuations during the preceding twelve months in the Consumer Price Index.

H.R. 2632, if enacted, would authorize the Commissioner to adjust the fee for filing a trademark application without regard to the fluctuations in the Consumer Price Index during the preceding twelve months.

Section 31 also allows new fee amounts to take effect thirty days after notice in the *Federal Register* and the *Official Gazette of the Patent and Trademark Office*.

Recovery Level Determinations: The existing fee schedule, along with the proposed adjustment to the trademark application fee, would recover $518,692,000 in fiscal year 1994, as proposed in the Administration's budget request to the Congress.

Patent statutory fees are subject to the provisions of the Omnibus Budget Reconciliation Act of 1990, as amended by Public Law 102-204. Of the total amount of section 41(a) and (b) income expected to be collected in 1994, $103 million must be deposited to the Fee Surcharge Fund for deficit reduction purposes in lieu of seeking general taxpayer funds from the U.S. Treasury. The $103 million is deposited in a special account in the U.S. Treasury, reserved exclusively for use by the PTO, and is made available to the PTO through the appropriation process.

Fee Analyses: In response to comments on the proposed fee adjustment for fiscal year 1993 (see 57 FR 21535), the PTO initiated a study of Patent Cooperation Treaty (PCT) fee amounts and maintenance fee amounts. The final results of these studies will be published in the notice of proposed rulemaking for fee adjustments to take effect in October 1994.

General Procedures: Any fee amount that is paid on or after the effective date of the fee increase, would be subject to the new fees then in effect. However, the provisions of 37 CFR 1.10 relating to filing papers and fees with an "Express Mail" certificate do apply to any paper or fee, including trademark applications, to be filed in the PTO. If an application or fee is filed by "Express Mail" with a proper certificate dated on or after the effective date of the rules, as amended, the amount of the fee to be paid would be the fee established by the amended rules.

DISCUSSION OF SPECIFIC RULES

37 CFR 2.6 Trademark fees.

Section 2.6, subparagraph (a)(1), if revised as proposed, would adjust the fee authorized by the Trademark (Lanham) Act of 1946 in accordance with the provisions of H.R. 2632.

OTHER CONSIDERATIONS: The proposed rule change is in conformity with the requirements of the Regulatory Flexibility Act (5 U.S.C. 601 et seq.); Executive Orders 12291 and 12612; and the Paperwork Reduction Act of 1980, 44 U.S.C. 3501, et seq. There are no information collection requirements relating to patent and trademark fee rules.

The PTO has determined that this proposed rule change has no Federalism implications affecting the relationship between the National Government and the States as outlined in Executive Order 12612.

The General Counsel of the Department of Commerce has certified to the Chief Counsel for Advocacy, Small Business Administration, that the proposed rule change would not have a significant economic impact on a substantial number of small entities (Regulatory Flexibility Act, 5 U.S.C. 605(b)). Less than 10 percent of the revenue generated in fiscal year 1994 will come from the payment of trademark fees. Small entities have the option of not registering their marks under the Federal system, but can choose to use their mark under common law. While the trademark application fee is proposed to be increased from $210 to $245, PTO has attempted to keep trademark application fees as low as practicable to encourage small entities to enter the trademark system. No other fees are proposed to be increased at this time.

The PTO has determined that this proposed rule change is not a major rule under Executive Order 12291. The annual effect on the economy would be less than $100 million. There would be no major increase in costs or prices for consumers; individual industries; Federal, state, or local government agencies; or geographic regions. There would be no significant adverse effects on competition, employment, investment, productivity, or innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.
